

7th Annual Sustainability Conference

Practical & Innovative Solutions for Creating Sustainable Communities

Tuesday, May 5, 2015 | 8:30 am – 3:30 pm (8:00 am registration)

Home of Mayor John Fetterman, 1215 Braddock Avenue, Braddock, PA, 15104

Sustainable Pittsburgh's Champions for Sustainability (C4S) once again joins the American Society of Civil Engineers (ASCE) Pittsburgh Section and the Environmental and Water Resources Institute (EWRI) Pittsburgh Chapter for a full-day event that looks at the connections of creative innovation and practical solutions to help our communities become more sustainable.

The event offers a range of policy-oriented and technical presentations for sustainable community solutions. Presenters will cover such topics as transforming a culture of abandonment into a platform for entrepreneurial activity, reinvestments that build community and meet core needs, and access to transit. Sessions will focus on several cutting edge technologies, such as green solutions for managing stormwater, and opportunities for biogas to manage waste and provide power.

The event takes place in the heart of a community investment project, the now-home of Braddock Mayor John Fetterman, located above Superior Motors: Community Restaurant & Farm, a project in progress by famed restaurateur Kevin Sousa.

Participants will have the opportunity to tour [Freestore 15104](#), which receives surplus and donated goods and redistribute them to neighbors in need and changes individual relationships with material goods while combating poverty through empowerment. All participants are requested to bring a donated item for Freestore as part of their conference registration (diapers and toys are items most needed).

This event will offer insights from the cutting edge of practice at sustainable

Members: \$45

Non-Members: \$60
